RECEIVED

Dear Administrator Leavitt:

On November 7, 2001, the American Chemistry Council Olefins Panel (Panel) submitted a Test Plan under the High Production Volume (HPV) Chemical Challenge Program pertaining to the Propylene Streams Category. Robust summaries for modeling studies conducted for this category were submitted to EPA on December 4, 2003.

With this letter, the Panel submits the Category Summary Report for the Propylene Streams Category. With the submission of this category report, the Panel has completed its obligation under the HPV Challenge Program for the Propylene Streams category.

If you have any questions, please contact Elizabeth Moran, Manager of the Olefins Panel, at 301 924 2006 or Elizabeth_Moran@americanchemistry.com.

Sincerely Yours,
